PROFILE

South African technology entrepreneur and transformation leader working at the intersection of human insight, business strategy, and technical automation. Nandisa builds practical digital capability inside organisations, helping teams turn AI and technology investment into measurable progress.

LEADERSHIP & VENTURES

- Digital Transformation Lead, MANCOSA — leads organisation-wide digital strategy and capability-building from Johannesburg.
- Founder, Innohance Digital / Innohance Learning / Innodigital Africa — streamlines workflows, develops custom automation frameworks, and helps small-to-medium enterprises scale.
- EdTech foundation — began by designing products that expanded learning access and career opportunities across South Africa.
- Claude Partner Network — Innohance Digital is recognised as an official partner within Anthropic's global network.

CORE EXPERTISE

- AI transformation and responsible adoption
- Digital strategy and product management
- Workflow automation and process optimisation
- Agile delivery and cross-functional leadership
- Corporate speaking, moderation, facilitation and MC work
- Team upskilling and digital capability building

- Panel contributor, CNBC Africa AI Summit 2026
- 2nd place, Green Youth Indaba Pitch — Greendel
- 1st place, UKZN Student Entrepreneurship Week — Ekhaya4U

METHOD & IMPACT

The RCCF Prompt Framework

Nandisa teaches a practical framework that helps everyday professionals replace vague AI requests with precise instructions and useful outcomes.

R

ROLE
Define who the AI should act as.

C

CONTEXT
Provide the background, constraints, audience, and why.

C

COMMAND
Give a precise, direct task and intended outcome.

F

FORMAT
Set the exact structure and presentation of the response.

SOCIAL IMPACT

A consistent part of Nandisa's work is closing the regional digital divide through free, practical education. Her initiatives include tailored AI Essentials training for 30 caregivers and gender-based violence response workers at Ladies of Hope in Ennerdale, and digital media skills training for local film and television students through Magaga Media.

SPEAKING & COLLABORATION

Available for keynotes, panel moderation, corporate MC engagements, AI workshops, digital transformation programmes, strategy engagements, and team training. Her approach connects executive intent with practical workflows, agile delivery, and outcomes organisations can measure.
